Professional Experience

Cisco

Software Engineer

June 2025—Present

Atlanta, GA

- Restructured Kubernetes secret management, patching over 100+ major security vulnerabilities
- Developed AI in-app support agent to reduce strain on ops team and improve usability
- Spearheaded shift to trunk-based development, cutting deployment delays by weeks
- Modernized CI/CD infrastructure, including Jenkins, GitHub Actions, and QA automation

Gulfstream Aerospace

UGA Capstone Project

September 2024—March 2025

Athens, GA

- Developed a cutting-edge system to quickly and precisely localize an AR application without fiducial markers
- Led a team of four, communicating with stakeholders, drawing roadmaps, and planning deliverables
- Researched advanced SLAM, localization, and computer vision algorithms
- Integrated state-of-the-art point cloud registration techniques using neural networks

Attorneys and AI: How Lawyers use AI and analyze its impact

CURO Summer Research Fellow under Arielle Schlesinger, Ph.D.

January 2024—October 2024

Athens, GA

- Interviewed 40+ legal professionals to understand AI-induced risk and disruption in the legal field
- Published and presented at ACM CSCW 2025 (top-tier academic conference) in Bergen, Norway

PivotAgile

Software Developer (Contractor)

Summer 2023

Atlanta, GA

- Built a Jira extension to calculate and display additional information for use in Agile transformations

Projects

GlobaLink

UGAHacks 2024 Winner — 2nd Place Overall (out of 150+ teams)

February 2024

Athens, GA

- Led a team of four in a competitive 36-hour hackathon, aggressively managing priorities on a strict deadline
- Designed and developed an app to connect new US immigrants with older mentors for guidance and support

Paradise Found

UGAHacks 2023 — Top 3 Finalist, State Farm Challenge (out of 125+ teams)

February 2023

Athens, GA

- Led a team of four in a 36-hour hackathon, coordinating teams across the stack for smooth, rapid progress
- Integrated 6 RESTful APIs into an all-in-one travel planning dashboard
