Education

University of Georgia, Honors College

B.S. Computer Science; Minors in Music and Spanish

Certificate in Applied Data Science

Magna Cum Laude, Zell Miller Scholarship, UGA Presidential Scholar

Coursework: Data Science, Data Mining, Artificial Intelligence, Data Structures, Algorithms

May 2025

Athens, GA

GPA: 3.89/4.00

Anthropic Academy

Prompt Engineering, Model Evaluation, MCP, RAG, AI Safety

May 2026

Skills

- **Programming Languages:** Python, Java, JavaScript, HTML/CSS, GdScript, C#, SQL
- **Frameworks & Libraries:** Pandas, Scikit-learn, REST, MCP, SpringBoot, React, Tailwind CSS, Unity, AR Kit
- **Infrastructure:** GitHub (incl. GitHub Actions), Jenkins, MongoDB, Kafka, Kubernetes, Docker, OpenSpec
- **Other:** Stakeholder communication, linguistics (phonology), musical performance, Spanish proficiency

Professional Experience

Cisco

June 2025 – Present

Software Engineer

Atlanta, GA

- Reduce development delays by weeks by leading a CI/CD modernization effort — including GitHub Actions, Jenkins, release software cleanups, K8s health probes, trunk-based development, and security scans
- Restructure Kubernetes secret management, patching over 100 major security vulnerabilities
- Develop AI in-app support agent to achieve dramatic reduction in support incidents (Python, JavaScript)

Gulfstream Aerospace

September 2024 – March 2025

XR Engineer — UGA Capstone Project

Athens, GA

- Developed an AR application using computer vision to quickly and precisely localize a user in real space
- Led a team of four, communicating with stakeholders, drawing roadmaps, and planning deliverables
- Researched advanced SLAM, localization, and computer vision algorithms
- Integrated state-of-the-art point cloud registration techniques using neural networks (Python, C#)

Attorneys and AI: How Lawyers use AI and analyze its impact

January 2024 – October 2024

CURO Summer Research Fellow

Athens, GA

- Interviewed 44 legal professionals to understand AI-induced risk and disruption in the legal field
- Published and presented at ACM CSCW 2025 (top-tier research venue) in Bergen, Norway

PivotAgile

June 2023 – August 2023

Software Developer

Atlanta, GA

- Built a Jira extension to calculate and display additional information for Agile transformations

Projects

Globalink

February 2024

UGAHacks 2024 Winner — 2nd Place Overall (392+ participants)

Athens, GA

- Led a team of four in a competitive 36-hour hackathon, managing priorities on a strict deadline
- Designed and developed an app to connect new US immigrants with older mentors for guidance (React)

Paradise Found

February 2023

UGAHacks 2023 — Top 3 Finalist, State Farm Challenge (427+ participants)

Athens, GA

- Led a team of four in a 36-hour hackathon, coordinating teams across the stack for smooth, rapid progress
- Integrated 6 RESTful APIs into an all-in-one travel planning dashboard (Python, HTML, CSS)
